

AbstractIMPROVEMENTS IN OR RELATING TO CONTAINERS

5 A water-soluble container comprising at least one first
compartment, said one or each first compartment containing a
composition that comprises less than 5 wt% free water, and a
second compartment containing a second composition, wherein
the second composition generates a gas on exposure to the
10 atmosphere or water, and more than 50% of the surface area
of the second compartment is enclosed by the first
compartment or first compartments.
